PRELIMINARY AMENDMENT

JAN 2 6 1999

Please amend the claims as follows.

Group 2700

1.   (Twice Amended)   A method of correcting incorrect text associated with recognition errors in computer-implemented speech recognition, comprising:

performing speech recognition on an utterance to produce a recognition result for the utterance;

identifying a correction command in the recognition result for the utterance; and

identifying corrected text from a portion of the recognition result for the utterance,

wherein the correction command indicates that the portion of the recognition result comprises a pronunciation of a word to be corrected.
